

# Forging Maritime Experience Beşiktaş & Düzgit Joint Venture in Yalova

Park Shipyard has emerged as a collaboration between two established maritime leaders to bring warmth and professionalism to the industry. With extensive experience in shipbuilding, shiprepair, ownership, and management, Besiktas Shipyard and Düzgit Yalova Shipyard have come together to create a shipyard that embodies our shared commitment to excellence.

At Park Shipyard we can accommodate five vessels simultaneously, up to LR1 tankers, panamax bulk carriers and feeder container ships. Covering a 227 meters length and 37 meters width our panamax floating dock rests within a 50,000-square-meter space.

## Key Highlights:

Efficient shipyard organization guided by lean management principles

- Floating Dock: 227m x 37m
- 900 m berth up to 14 m draft
- 50.000 sqm total area
- 10.000 sqm closed area
- In-house workshops
- Cosy and modern superintendent offices
